

CORNERSTONE LAYING OF SUNSHINE HALL

Will Be Notable Occasion At Berea College Saturday—Morrow To Speak

Gov. Morrow will make the principal address at the cornerstone laying of the Sunshine Ballad Cabin, at Berea Saturday.

Lieut. Gov. Thruston Ballard will present the cabin to Berea College and it will be accepted on behalf of the college by Mrs. Anna Ernberg, head of the department of fireside industries. President Hutchins will give a short talk and the Girls' Glee Club will sing "My Old Kentucky Home." Many distinguished visitors from Louisville, Lexington and other cities will be present.

The construction of the Sunshine Ballad Cabin is the result of a conversation between Mr. Ballard and Mrs. Ernberg, in which the former pledged his salary as Lieutenant Governor of the state to the fireside industries department.

The check for \$1,000 given by Ballard at the close of the 1920 legislative session is the first state money ever received by Berea College from Kentucky, according to a statement made by former President Frost. It soon became evident that the lieutenant's salary would not be sufficient to build such an addition to the fireside industries department as was needed, and consequently Mr. Ballard increased the amount to \$5,000.

The new cabin will follow the plan of the main building, which is in every way unique. The outside will be a typical log cabin, but the inner walls will be of cedar. Floors are also of polished wood. In the main building classes in spinning, hand-weaving and basket making are to be conducted. The new cabin will have rooms and equipment for making the vegetable dyes used by mountain women for generations and restored by Mrs. Ernberg because of the beauty and permanence of color given to fabrics by the herb stains. There will also be two large class rooms in the new building.

The rapid growth of the fireside industries department is due partly to the increased demand all over the country for hand-woven fabrics, and partly to the fact that it gives the student a permanent means of livelihood. Through the department it is made possible for girls going back to their mountain homes to obtain hand-loomed and continue the work they have begun in school.

Mrs. Ernberg has not only reproduced the historic patterns brought by the early settlers from England, but she has introduced a number of new patterns from Sweden. The construction of equipment necessary for dyeing the fabrics used in the college will simplify and make it possible to extend the work of the department.

(By Associated Press)

When the case came up the court dismissed the charge of first degree murder against Mrs. Parsons. A fourth degree manslaughter charge was immediately filed.

CITY ACCEPTS GIFT OF MRS. IRVINE'S HOME

Council Unanimously Votes to Incur Obligations Necessary To Secure Park

The City of Richmond will accept the home place of the late Mrs. Elizabeth S. Irvine to use as a public park as provided in her will, which is now before the Madison circuit court.

Necessary action to this effect was taken at the meeting of the City Council Thursday night. A resolution was adopted by a unanimous vote, accepting the request, assuming the necessary obligations, and directing the City Attorney to take such legal action as may be necessary to secure the city's rights under Mrs. Irvine's will.

Attorney A. R. Burnam, representing Executor John W. Crooke was before the council on another matter at its meeting. He informed the members that the Kentucky State Medical Association, to which the home place, "Irvine," was first left for hospital purposes, had failed to take any affirmative action of any sort indicating it desired to accept the request. Mr. Burnam said that it seemed very probable that income from Kansas City property intended by Mrs. Irvine to support such an institution would fail because of failure of the will to comply with the Missouri laws regarding last wills and testaments. He pointed out that the alternative bequest of the property to the City of Richmond, would then prevail, and it would be necessary for the City of Richmond to take some affirmative action indicating its intentions. Mr. Burnam said that he valued the property as reasonably worth \$50,000.

It seemed to be the unanimous opinion of the councilmen that the city should not fail to grasp such an opportunity to secure a magnificent park, or playground, and the resolution above mentioned was passed without a dissenting voice.

THIS BIRD IS A DOUBTING THOMAS

The Daily Register received the following from one of its readers which tells its own story:

City, May 19.
Editor Daily Register—Sir: There's no ghost of a doubt but you've heard the expressions, "It's all in imagination," "There's millions in it" and others of odds of similarity. What I mean to say, then, is that your "Bend" pencil brandisher ought to be "charming" milady's boudoir and stirring up hornets' nests in the lettered world. Why should any mortal endowed with his profundity of the imagery content himself in any obscure "Bend"?

Why isn't he abroad in the limelight gambling in the pink-tinted glens of renown and shekels with Irv. Cobb and others of their ilk? Why, prithee, doesn't

he run Cecil de Mille's scenario writers off God's green earth? Why, can you tell me, doesn't he "step on her" and tickle the gods of the muse so thoroughly they'd forget ever having wasted time on such fancy dwarfs as Poe and Bret Harte?

But as I ponder o'er these puzzling questions a more serious one bobs up in my mind: Why will the vendors of this imagination-giving vin take a chance on such a law-abiding citizen as a newspaper correspondent must be? And, yes, why will the same citizen take a chance on partaking of it when it makes him see fox hounds and foxes and fox chases and fox hounds treeing jugs and haying at them like some female novelist's watch dog barking at the moon because it has a "ring" around it? Poor correspondent! And poorer stuff it is they have in the "Bend."

EASTERN WINS ANOTHER GAME

Jim Lackey and His Teammates Easily Hold Lancaster Team in Check by 13 to 3

The Eastern Normal base ball team again came out at the big end of the horn, crossing bats with the Lancaster team Thursday. Eastern slaughtered them to the tune of 13 to 3.

Lackey pitched a high brand of ball, allowing only four hits. His drop and underhand ball seemed to have them guessing. His strikeout record reached eight and he did not hit or walk a man. The other half of the battery in Fox was equally as good. His handling of foul flies is the best ever seen here this season. He pulled down one from Miller's bat after a hard run in the fourth inning. A nice catch by Dunaway cut off a hit in the first. Not too much can be said of the work of Mainons at the hot corner. He has played through the last three games in spite of a broken thumb in three places. He is going at a great clip, batting 1000 per cent in Wednesday and Thursday games. Combs smashed one past the tennis courts for four bases in the fourth. This is his second in the last two days, making one for the legion boys in their game. Dunaway collected three hits in the same number of times up, one going for three bases.

The big inning for Normal was the fourth in which sixteen men faced the Lancaster pitchers. Two men, Rice and Dunaway, made two hits in this big inning. Nine hits combined with four errors and two bases on balls totalling 11 runs for the Normalites. Praise the boys as you like, but fully half is due to Coach Hembree. He has shown the boys their weaknesses and helped them correct them. He had developed several hidden stars. He made quite a record while he attended school here in his younger days and all are delighted to hear of his re-election to the same position for the coming year. The score:

"Yes," said the specialist, as he stood at the bedside of the sick purchasing agent, "I can cure you."

"What will it cost?" asked the sick man faintly.
"Ninety-five dollars."

"You'll have to shave your price a little," replied the purchasing agent, "I have a better bid from the undertaker."

Value to You of an Advertising Agency

You're in business. You're putting up a line of trademarked goods, we will say. You want to sell them.

You send out salesmen. They get distribution for you. Your goods are on the dealers' shelves.

Now you need advertising--to interest the consumer--to make Mrs. Smith or Mr. Jones ask for your goods by name--to say, for instance, "I want a can of BROWN'S Beans" instead of "I want a can of beans."

Two courses open to you: You either undertake to prepare and place your own advertising or you shove the whole job on an advertising agency.

If YOU undertake to do it, you first select your papers. Suppose you are going to use 100 papers. What papers? If you haven't a newspaper directory, you have to borrow or buy one. You write to the paper for rates.

After you've picked your papers, you write your ads, employ an artist to make drawings for the illustrations, employ an engraver to make original plates, employ an electrotypist to make duplicate plates, employ a printer to set the ads to secure uniform strong typographical displays; then you mail the proofs and plates to each paper with instructions when to insert; after that you have to search thru the papers to be sure the ads appeared, and if they did, you have to open accounts with 100 papers and mail 100 checks each month while the advertising is running.

You and your office force have done loads of tiresome work and worry that an advertising agency would have done without charge. Thru an advertising agency you pay exactly the rates you pay publishers direct. The agency gets its remuneration in the shape of a small commission from the publishers--a commission they are only too willing to pay because agency service saves them labor and expense.

An advertising agency prepares the ads and, after being OK'd by you, forwards them for insertion, checks up their appearance in the publications. All you have to do is to pay ONE bill to the agency each month.

Besides, the agency gives you, free, the benefit of its expert knowledge of merchandising methods. It analyses your business. It decides before accepting your account whether you are really ready to advertise.

The agency is your representative--just as much so as your salesman.

Most of the successful interstate and national advertising is placed thru advertising agencies.

The nine advertising agencies listed below comprise the Southern Council of the American Association of Advertising Agencies. Write to the agency you prefer and get the benefit of its advice, organization and equipment:

LOUISE M'KEE DOES FINE WORK AT STATE

Her many friends at home here were gratified to learn that Miss Louise McKee, junior in the College of Arts and Sciences at the University of Kentucky, and a daughter of Mr. and Mrs. R. J. McKee, of this city, has been recently announced as among those students who have won advanced scholastic standing for the school year.

Miss McKee, who is majoring in economics, a subject usually attractive only to men, is surpassing many of her fellow students in her chosen department and is mastering difficult theories of finance and commerce with success worthy of "honorable mention." Her standing for the last semester averaged 2 or 3 in the system of University grades.

Besides winning scholastic honors, Miss McKee is active in campus affairs and extremely popular in the social life of the University. She recently was pledged to Mortar Board, senior honorary society, composed of the leading women of her class. She is also a member of the Chi Omega fraternity and resides at her chapter house while in Lexington.

Time to Face the Facts

"So much has been said against the use of patent medicines that I have had a strong prejudice against them. But after four years' doctoring with six different doctors, without results, for acute indigestion, gastritis, constipation and appendicitis and other ailments, I was said to possess, I was encouraged to try Mayr's Wonderful Remedy, seeing what it had done for a friend similarly afflicted. I also was entirely relieved of my trouble, and am sure this medicine will do all and more than is claimed for it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes, practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sold by H. L. Perry and Son and druggists everywhere.

IN THE MOVIES

"The Broken Gate" a Hookinson released picture starring Bessie Barriscale, will be shown at the local theatres tonight. This pictureization of the famous Emerson Hough novel of the same name has been handled in a very capable manner, and presents one of the strongest stories ever seen on the screen.

The theme of "The Broken Gate" is widely different from the average motion picture entertainment. It is the sort of entertainment that is badly needed—good, strong pictures with a moral that gets across without being preachy.

CHURCH PENSION PLAN DISCUSSED

More Interesting Reports Made on Work by Presbyterians at Winona

(By Associated Press)

Winona Lake, Ind., May 20.—Presbyterian plans for pensioning of the church's veteran ministers and their widows face a critical situation, Dr. Henry B. Master, general secretary of the church's board of ministerial relief and sustentation, told the Presbyterian General Assembly here today. He attributed the board's difficulty to failure to consider its needs in preparation of the church's budget and called on the General Assembly for relief.

Reviewing the church's pension system, Dr. Master said: "To secure a pension at the age of 70 or 65, as the case may be, a minister must pay each year a premium which amounts to one-fifth of the sum necessary to produce a pension of \$500 when the prospective pensioner reaches the age of 65 or 70, as the case may be. The balance of the sum necessary to produce this pension must be provided by the church at large."

Higher salaries for missionaries and widespread extension of evangelization, especially among those of foreign birth, were reported today by the Presbyterian Board of Home Missions through its secretary, Dr. John A. Marquis. Dr. Marquis reports a new spirit developed after the depressing years of the war. He says in part:

"A budget in excess of \$1,800,000 was appropriated for the year and expenditures were actually made approximating \$1,644,000, which exceeds the amount expended during the preceding fiscal year by about \$425,000. The year's receipts from living givers were approximately \$990,000, an increase of 16.7 per cent over the receipts of the previous year from the same sources. The total receipts of the year, including legacies and interest were approximately \$1,340,000. In addition, the board voted to make available for current work \$188,000 in legacies derived the previous year, which had been carried to the permanent fund. This makes the total amount available for current work for the year \$1,552,000, the high water mark in the history of the board."

Dr. David G. Wylie, general secretary of the Presbyterian board of church erection, in his annual report to the General Assembly, tells of more than \$1,000,000 having been spent in aiding construction of 269 churches and manse in various parts of the United States. In the last year Dr. Wylie says:

"The board of church erection has just closed a successful and in many respects a remarkable year for church and manse building. The figures speak for themselves: Applications in \$2,028,786.18; Appropriations made 1,294,210.22; Appropriations paid 1,005,626.91. The board has made grants for churches and manse \$299,776.10; Loans for churches and manse \$705,580.81; Total \$1,005,626.91."

Never before has the Presbyterian Woman's Board of Home Missions been able to report so many women, young people and children enlisted in the service of home missions as in the year just closed, says Miss Lucy H. Dawson, its general secretary, in her report. She says in part:

"Statistics show a membership of 401,400, an increase of 54,276 over the year 1919-1920. Of this increase 39,500 are in young people's organizations. The report shows 49 new women's societies and 1,239 new young people's organizations. The secretary for missionary education for the board reports 2,050 mission groups for the year."

Work Among Negroes

The need for expansion in the work of the Presbyterian church among the negroes is shown by Dr. S. J. Fisher, president of the Presbyterian Board of Missions for Freedmen, in his annual report to the General Assembly. Dr. Fisher says in part:

"Never has there been more applications for enrollment in our schools, or a greater interest in the education by the negroes of the south. At Arkadelphia, Arkansas, a \$25,000 dormitory for boys has been erected, most of the expense being defrayed by a generous friend of our work."

At Boggs Academy, Key West, Fla., a boys' dormitory, also costing \$25,000 has been finished and

MINISTER'S ADVICE BLESSING TO HER

Mrs. Kelly Thought She Was Beyond Hope—Says Tanlac Restored Her to Splendid Health

"I had long thought that no medicine could do me any good; but Tanlac has done for me in just a little while what I had tried for years to get other medicines to do and my enthusiasm for it is unbounded," was the statement made recently by Mrs. G. M. Kelley, wife of G. M. Kelley, well-known employee of the West Virginia Pulp & Paper Co., residing at 420 Highland St., Covington, W. Va.

"My stomach pained and worried me all the time for four years and everything I ate gave me awful cramps. At times I couldn't retain a bite of food, and even a crust of dry bread would nearly thrown me into spasms and I had such gagging spells I was afraid I would burst a blood vessel. I was so nervous I couldn't sleep, and my forehead, neck and back hurt awfully. Sometimes I could not straighten my neck, and my back was so drawn at times that I couldn't stand up straight. Finally I got so bad off I just had to quit doing any of my housework and spent most of my time lying down."

"Well, after everything that seemed possible was done for me, the Rev. W. C. Richardson, a Methodist minister, told us he thought Tanlac was what I needed. So I started taking it and while on my first bottle I got so much better that I knew Tanlac was just what I had been needing, and now I'm in such fine health I'm really enjoying life for the first time in years. I have a wonderful appetite, never have a touch of indigestion, and can keep at my housework all day long without sitting down, except at meal time, and still feel good. Tanlac is simply grand."

dedicated. An enlargement of the work at Selden Institute, Brunswick, Ga., is being arranged which will provide rooms for a number of boys.

"As the negro population increases normally and the educational assistance given by public

authorities does not keep pace our work of Christian and industrial education must expand and meet the great demand. The board asks for \$40,000 to rebuild the theological seminary at Biddle University (a necessity occasioned by fire) for \$25,000 to provide a boys' dormitory at Albion Academy, Franklinton, N. C.; \$15,000 for a recitation building at Alice Lee Elliott School, Valliant, Oklahoma; \$5,000 for a school building at Martinsville, Va. There is a great opportunity and a pressing need for 10 new school buildings at a cost of \$2,500 each to country districts, while school equipment and furnishing ask for \$50,000."

There is no waste. If a recipe calls for one egg—two cups of flour—half a cup of milk—that's all you use. You never have to re-bake.

Calumet is absolutely sure. In any baking—any time, whether the can has just been opened or whether it is the last spoonful.

Contains only such ingredients as have been officially approved by U. S. Food Authorities—and is the product of the world's largest, most sanitary Baking Powder Factories.

AN ORDINANCE

Submitting to the Voters of the City of Richmond, the Question of Whether or Not the Board of Council Shall be Authorized to Incur an Indebtedness of Eighty Thousand Dollars for the Purpose of Erecting a Public School Building and other School Purposes.

Whereas, the Board of Education of the City of Richmond has certified to the Board of Council of the City of Richmond, the following certificate and resolution, requesting and directing the Board of Council to submit to the voters of the City of Richmond, the question of whether or not the City of Richmond shall incur an indebtedness of Eighty Thousand Dollars (\$80,000.00) Dollars, for the purposes set forth in said certificate, which is in words and figures as follows:

The Board of Education of the City of Richmond hereby certifies to the City Council of the City of Richmond, that at a meeting of the Board of Education of the City of Richmond, held at the office of the chairman, John Noland, at 8 p. m., May 18, 1921, the following resolution was adopted:

Whereas, it is necessary to erect a modern school building in the city of Richmond, to replace the school building destroyed by fire, and to equip same; and

Whereas, the Board of Education has employed competent architects, Messrs. Webber & Webber, of Cincinnati, who have prepared estimates and drawings of such a building, and have estimated the cost of a suitable structure at not less than \$110,000 and

Whereas, the Board has made a careful estimate of the money required for such purpose, and is satisfied that a suitable building cannot be built and equipped for less than said sum of \$110,000 and

Whereas, no part of said amount of money is available except the sum of \$28,000, being the amount of insurance collected upon fire insurance policies upon the building destroyed by fire; and

Whereas, it will be necessary to incur an indebtedness of at least \$80,000, and said proposed

indebtedness will exceed the income and revenue provided for school purposes for this and succeeding years; and

Whereas, it is possible to provide a school building for less than said sum of \$110,000, the colored school of the city of Richmond is in need of improvements and extensions, both to the building and grounds;

Now, therefore, be it resolved, that the Board of Education of the city of Richmond, shall certify as required by Chapter 14, of the Acts of the General Assembly of Kentucky, for the year 1920, the necessity of submitting to the voters of the city of Richmond, the question of issuing bonds of the city of Richmond in the sum of \$80,000, the proceeds of said bonds to be used for the purposes aforesaid.

Be it further resolved, that a copy of this resolution be certified to the City Council of the city of Richmond, and such certification shall be deemed a request upon the part of the Board of Education that the City Council of the City of Richmond shall by ordinance, as provided by law, take such steps as are necessary to have said question submitted to the voters of the city of Richmond, in not less than fifteen nor more than thirty days.

Upon said resolution being put to a vote by the chairman of the Board, the following members voted in the affirmative: W. E. Blanton, H. G. Sandlin, Z. T. Rice and John Noland; the following in the negative: none.

Whereupon the chairman declared said resolution carried.

There being no further business before the meeting, on motion, it was adjourned.

JOHN NOLAND, Chairman.

Attest: Z. T. RICE, Secretary.

Pursuant to the action of the Board as above set forth, the above resolution is certified accordingly this May 19th, 1921.

JOHN NOLAND, Chairman.

Attest: Z. T. Rice, Secretary.

Whereas, under and by virtue of Chapter 14 of the Acts of the General Assembly of Kentucky, for 1920, it is the duty of the City Council of the City of Richmond upon the presentation of the above certificate to pass an ordinance submitting the question above set forth to the voters of the City of Richmond, and to provide for the holding of said election; now, therefore, be it

Ordained by the Board of Council of the City of Richmond, that notice shall be given of an election by the qualified voters of the city of Richmond, to be held on the 17th day of June, 1921, and also notice of a special registration as hereinafter provided to be held on June 10th, 1921, to determine whether or not such proposed indebtedness of Eighty Thousand (\$80,000.00) Dollars, shall be incurred.

Said indebtedness shall bear a rate of interest not exceeding six per cent per annum and the tax shall be levied to pay the interest and to redeem the bonds as they mature, or to provide for the accumulation of a sinking fund to retire them at maturity.
